Dear Mr. Schorr,

The testimony and your and Ms. Clift's comments on General Singlaub and for whom he spoke prompt sending you (both) the enclosed letter I wrote to Senator Sarbanes for a different purpose.

If either of you has any interest, please make no mention of the fact that I sent this to the Senator. I think that would be unfair.

If today's contradictory versions of Latin American history interest, Prof. Walter La Faber's "Inevitable Revolutions" is current and limited to Central America. As a former Latin Americanist in intelligence I regard it as a good book.

Sincerely,

Harold Weisberg
